Educational purpose of the camp

The camp aims to give children challenging experiences in as wide a field as possible. Much emphasis is placed on the personality and social development that can take place in the camp situation. Children are given the opportunity to develop confidence in themselves and in their ability to adjust and cope with the "new environment". The program promotes in the child an appreciation of the outdoors and an awareness of the natural environment. Experiences in outdoor activities such as bush walking, orienteering, archery, canoeing, flying fox, and rope courses provide a basis for future outdoor recreation.
